**MEMORANDUM**

**TO: Winston-Salem State University Campus Community**

**FROM: Ivey L. Brown, Chief Legal Counsel**

**DATE: 10 May 2018**

**SUBJECT: Policy History Clarification**

---

Winston-Salem State University policy on Acceptable Use of Computing and Information Resources was approved by the Board of Trustees (“BOT”) on March 16, 2018 as an amendment of the Computer and Network Usage policy. However, the history of the signed version of the Acceptable Use of Computing and Information Resources, does not reflect the policy as an amendment. As such, this memo has been drafted to provide a historical context and explanation for any questions that may arise from this aberration. Acceptable Use of Computing and Information Resources replaced Computer and Network Usage Policy upon BOT approval on March 16, 2018.
