Ram Express services at WSSU began in August 2007 with two shuttles running one route across campus. Currently, Ram Express operates six routes with six buses and two vans that transport over 30,000 passengers monthly.

### Passenger Services

- For pedestrian and vehicular safety, passengers are only picked up or dropped off at designated Ram Express stops (see 3<sup>rd</sup> image).
- When exiting the shuttle, passengers should wait until the bus departs before crossing the road to reduce obstruction of view in both directions.
- Shuttle drivers are not required to wait for passengers who aren't at designated stops on time.
  - Passengers are asked to assist in not delaying routes by promptly arriving at designated stops.

### Auto & Pedestrian Safety Practices

- Automobiles on campus should avoid blocking roadways which may cause route delays or unsafe navigation of shuttles.
- Pedestrians should use sidewalks on campus to avoid blocking shuttle routes and causing potential accidents.

### Route Coverage & Timetable

- All routes include stops on Main Campus and the Computer Science Building area along with specific locations noted below.
- The approximate timeframe required to complete each route is as follows:
  - Route A – 18 to 23 minutes (*All Locations*)
  - Route B – 15 to 17 minutes (*Shuttle Lot, Anderson, & GHT*)
  - Route C – 13 to 14 minutes (*Anderson & Rams Commons*)
  - Route D – 12 minutes (*Field House & Shuttle Lot*)
  - Route E – 14 minutes (*Shuttle Lot*)
  - Route F – 12 to 14 minutes (*Lowery St & Shuttle Lot*)
- Vehicular and pedestrian traffic conditions may delay routes periodically.

### Transporting Statistics

- For the month of November 2012, Ram Express transported an average of 33,619 passengers (*up 3,000 from 2011*) - 8,405 passengers weekly - 1,681 passengers daily - 140 passengers hourly.

Ram Express endeavors to provide quality & safe customer service to all passengers.
