## WSSU WELLNESS CENTER PHARMACY

The WSSU Wellness Center Pharmacy is a full service pharmacy that offers full prescription services. We are an affordable and convenient option for students. The pharmacy is located within the lobby of the A.H. Ray Student Health Center, just steps from our clinic, which is approximately between the Anderson Center and Gleason Residence Hall. We carry a wide range of low cost prescriptions and over-the-counter (OTC) medications. A full-time pharmacist provides individual counseling for students with a minimal wait time.

### SERVICE

Patient education on prescription drug use is important. Aside from offering medications at reasonable prices, our pharmacist can also answer questions about medications. To receive service, please bring your prescription insurance card to the A.H. Ray Student Health Center.

### PAYMENT OPTIONS

There are charges for all items purchased at the pharmacy. Purchases can be paid in full at the time of your visit at the WSSU Wellness Center Check-in Counter by credit/debit or cash. Most third party insurance plans are accepted. The first time a student purchases a prescription at the pharmacy, he or she will need to present a prescription insurance card.

### PRESCRIPTIONS

The pharmacy fills prescriptions from WSSU Student Health Center practitioners and outside physicians and practitioners. You may bring your new prescription to the pharmacy, have your healthcare provider send it in by electronic script, call it in at 336-750-3366 or fax it in at 336-750-3399. Bring your student I.D. or a valid driver's license. We will fill your Rx while you wait.

### PRESCRIPTION REFILLS

To refill a prescription that was last filled at our pharmacy and that has valid refills remaining, you will need to leave the patient's name, date of birth, and name of your medication and the prescription number (if you have it). Come to the pharmacy with your student I.D. and we will fill your prescription.

### TRANSFER PRESCRIPTIONS

You should bring the old medication bottle(s) or label(s) to our pharmacy. The label lists necessary information, including the prescription number and contact information for the other pharmacy. We will call your pharmacy to transfer and fill your prescription if refills remain.
