

Template for CAA students earning an AAS degree or no degree who are interested in
Mass Communication at WINTHROP COLLEGE STATE UNIVERSITY

Any course identified in the CAA agreement will generally count towards the general education requirements of 60SE either as meeting an Area of Knowledge or as hours outside the major that count towards the 60 SE minimum.

At 60SE transfer students are required to take or transfer approximately 60 SE of credits outside of their major program requirements. Many of the 60 SE will be used to address requirements of the general education curriculum. For transfer students who have not met the general education core curriculum requirements as defined in the CAA, general education transfer credits will be used on a course-by-course basis. Transfer students should have at least one course in each of the seven general education areas of knowledge: **Culture and Energy, Language, History, Literature, Mathematics, Natural Science, Social and Behavioral Sciences, and The Fine Arts.** For transfer students with less than 60 hours of general education transfer credits, students will work with advisors to determine if there is a corequisite or a substitute. If there are no corequisites or substitutes for the seven general education knowledge categories as part of general education before the student enters the major, developmental skills courses do not count towards the hours needed to fulfill either general education requirements or the 60 SE outside of the major requirement. Developmental skills courses are non-credit, basic skills courses for students who demonstrate a need for English, mathematics, or reading skills before enrolling in college.
